

# Edinburgh Stag & Hen Weekends

## Falconry

Why not try your hand with the birds? Falconry gives you the opportunity to learn some of the basics of what was once considered a noble art.

However, although the days may be gone when we had to hunt for food, the chance to learn such gallant skills are far from over. This unique experience allows you to retrace your roots and feel nature at your fingertips... literally, as you learn to handle and fly birds of prey.

You may not be able to feel the wind in your hair, but you will certainly get a sense for the majesty of flight. Falconry is your chance to increase your skills with the birds.
