

Edinburgh Stag & Hen Weekends

Hovercrafts

Take to the air and skim the planet on a Hovercraft!

Virtually frictionless speed allows for some of the craziest manoeuvre's ever seen and means you'll be holding your stomach for the whole ride!

Of course if you prefer something a little more relaxed Hovercrafts also allow for some of the smoothest rides around! Bumps? What are those? With a cushion of air between you and the ground what could have meant disaster for another form of transport is barely noticed on Hovercrafts.

Take a risk, try something new! The very best in land and water transport Hovercrafts will blow you mind!
